## INTRODUCTION

- TECHNO LINE having established in 2004 has developed and progressed as a recognized Contracting and Trading company in the Power, Desalination, Petrochemical, Infrastructure and construction Projects
- Over a period of 18 years our growth is exponential which is achieved with dedicated and professional approach of our Team comprising of Management, Engineers and experience workforce.
- With our sustained growth over last 18 years, TECHNO LINE has taken the approach of venturing as sub-contractor for major EPC contractors.
- Joint Ventures with overseas suppliers and service providers has given us an edge in providing quality and timely deliverables to customers
- Quality and on-schedule completion of project / tasks has yielded repetitive orders from clients.
- Our own Equipment and Manpower resources will add value to arrive at most competitive commercial standing in the market.

## OUR GOAL

- Our goal is Excellence, Quality, Safety and Timely deliverables as well as our obligation to our clients and through each process of the service provided by TECHNO LINE, we maintain and set the industry standards for integrity and professionalism.

## COMPANY PROFILE AND SERVICE DETAILS

### • ABOUT US

Techno Line for contracting company strives to surpass the expectations of our clients, subcontractors and suppliers by developing relationships through integrity, professionalism and service which yields the highest quality construction Projects.

Our company can meet all the requirements of Industrial, Electro Mechanical Construction Services, Electrical (Oil & Gas) Construction Services, Sub-Station Services, plant expansion and civil construction services.

We are combining Technical expertise and rich human capital with deep knowledge and experience of local markets.

We are also provider of human resource, engineering design, procurement, construction and management service in all regions of Kingdom of Saudi Arabia. We believe in the enduring values of integrity, accountability, innovation, flexibility, social commitment and value addition.

Customer satisfaction and performance consistency have been our core assets throughout the years.

### • Company Management

Techno Line has a management team who are well versed with extensive experience in the industry to handle complex projects professionally.

### • Management Commitment

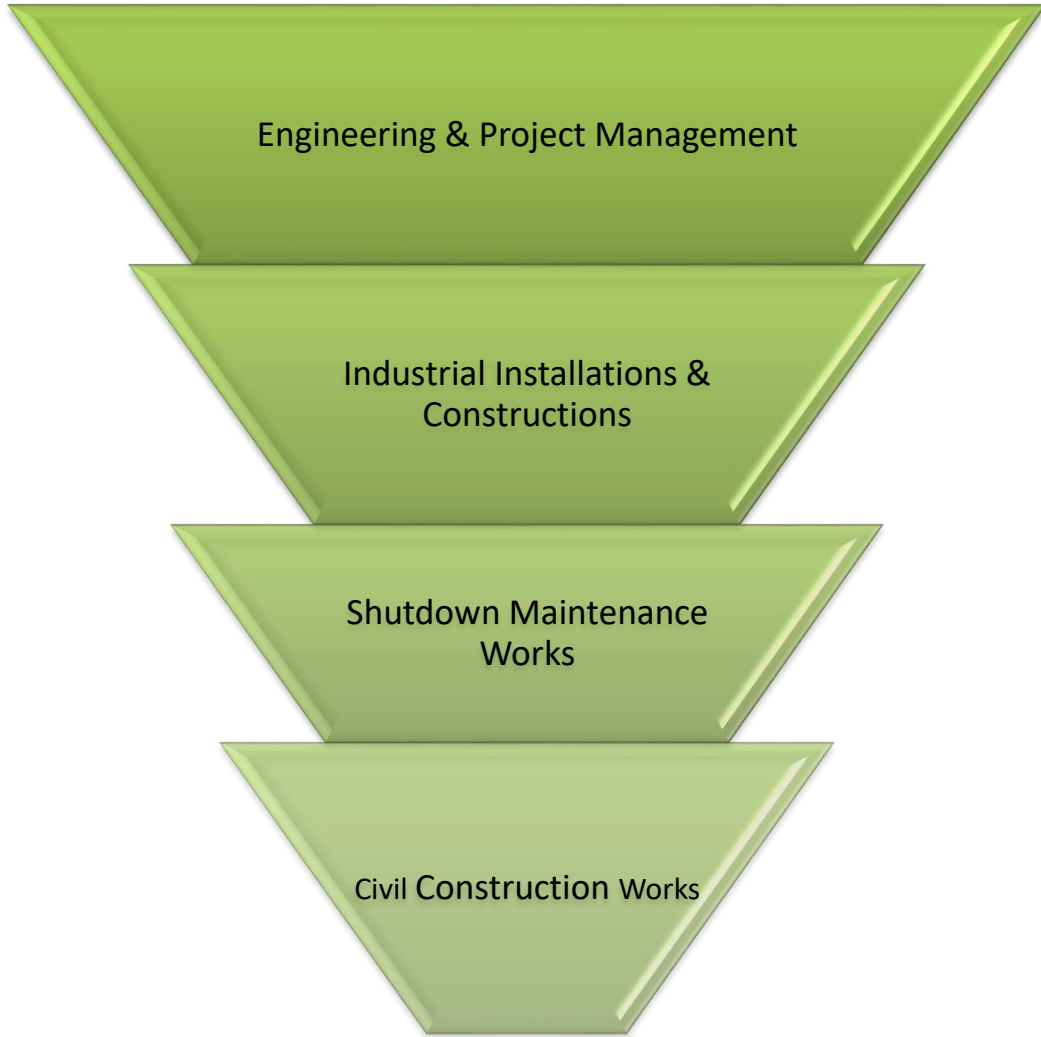

Techno Line has implemented a Quality management system to continuously maintain for effectiveness and process improvements in accordance with requirements of acknowledged information, quality standards, customer service agreements and all other statutory or regularity requirements as appropriate.

## SERVICE SECTORS

### Engineering & Project Management

- Project Management, Scheduling, Monitoring.
- Project Supervisory services
- Drawing reviews, modifications/ updates in drawings.
- QA / QC Documentation support services

### Industrial installations & Constructions

- Industrial Piping, Boiler / ESP Steel Structure, Pipe Racks Installation
- Rotating Equipments Installation, Flow control devices etc.
- GRE, GRP , HDPE, PVC/UPVC Pipings installation and laminations. Protection Coating for pipe lines
- Overhaul of rotating And stationary equipment's like pumps, Compressor, DG Sets and Steam and Gas turbine.

### Maintenance Services

- Boiler, Condenser, Heat exchanger and condenser tube cleaning, tube replacement and hydro jetting.
- Mechanical Inspection i.e. Welding inspection, Non Distractive Testing's, Acetone sensitivity test, Pressure testing, vacuum testing etc.

### Electrical Works:

- LV/MV Power & Distribution System
- Main Distribution Boards & MCC.
- ATS/MTS/Synchronizing
- Substation works
- Cable Laying and Scheduling
- Transformer components and maintenance.
- Generator inspection and maintenance.

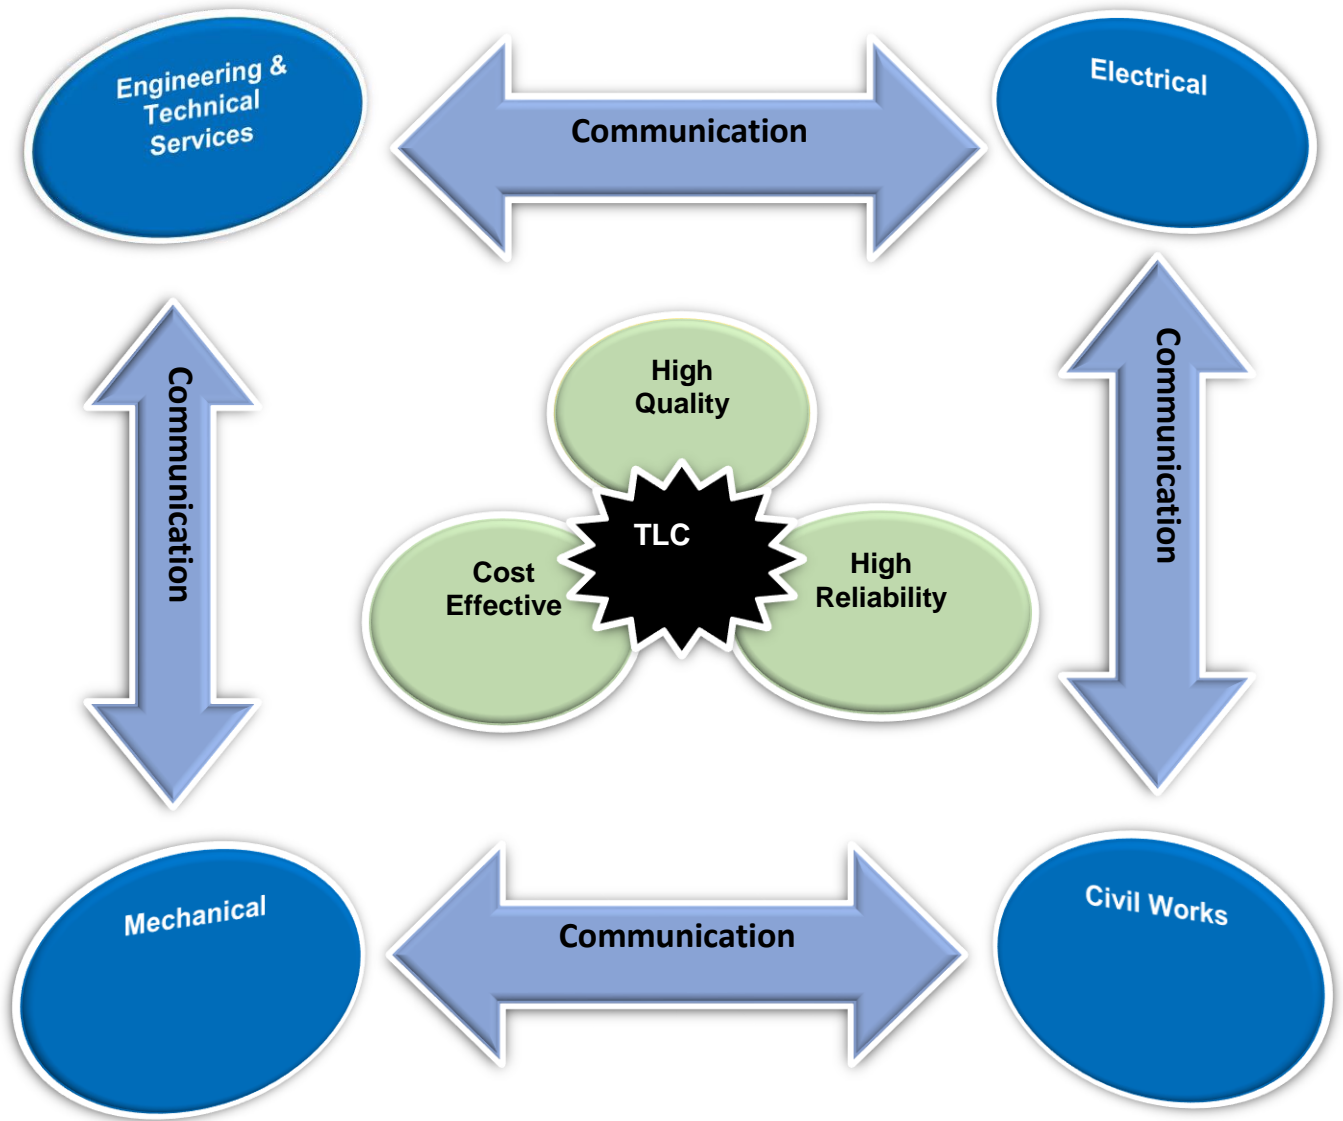

### Civil Works

- \* Underground Waterproof Tanks and Foundations
- \* Farm Wall Works
- \* Residential & Commercial Bldgs.,
- \* Private Villas
- \* Engine Foundations Works

## QUALITY SYSTEM

### 1. INTRODUCTION

Techno line is committed to achieve and maintain the desired quality the Company requires the commitment and participation of all personnel in the organization, including top management. Everyone in the company must stick at all times to Company Quality Policy

### 2. POLICY

The Quality Management System for a Project shall be used on the requirements of the contract specifications, relevant quality procedures standard requirements. The main purpose of quality Management System is to ensure the following activities:

- To develop & implement a comprehensive Quality Management System for the Quality Control & Assurance at Site, in line with Specifications & Procedures.
- To verify Quality Assurance Procedures and recommend amendments, if any to the Quality Plan.
- To develop Inspection Reports, Test Reports of laid materials & equipment & installations, final testing & commissioning reports and confirm technical acceptability in a timely manner.
- To undertake Quality Control Inspections in line with approved Method Statements, ITPs & Quality Plans.
- To define the structure of the Quality System Documentation and to identify the quality planning.

## SAFETY PLAN

### 1. INTRODUCTION

- Safety and Health is our top priority; our target is to reduce the annual accident rate.
- Obey the safety & health regulations.
- Every employee has the responsibility to ensure a safe working environment.
- Safety performance of employees will be considered an important factor in performance evaluation. Any employees who are in breach of the safety regulation and order with intent would be terminated immediately.

### 2. POLICY

It is the policy of TECHNO LINE to promote and support Health and Safety and industrial hygiene and to manage it in a manner that seeks to eliminate occupational injuries and illnesses.

It is the intent of this policy to:

- Allocate appropriate resources to develop programs to prevent accidents, injuries and illnesses.
- Provide a workplace that conforms to local laws and regulations governing occupational safety and health.
- Our Health and Safety Policy will be reviewed annually to monitor its effectiveness and to ensure that it reflects changing needs and circumstances

## OUR MAJOR CLIENTS

TECHNOLINE is fully committed to its prime objectives of contributing valuable services towards the development and advancement of the industry and projects in the Kingdom of Saudi Arabia. A list of our Client is given below:

- SWEC
- NOMAC
- SWCC
- Saudi Electricity Company
- Outotec ( Ma'aden , Cristal / Amic )
- Marafiq
- Ansaldo Caldaie S.p.A
- SARCO
- TOLEDO Arabia
- Drake & Scull International
- Zamil Cool Care
- GAMA Arabia
- EPC Contractors
- Tabuk Cement
- SEPCO Power Project Rabigh
